

## God is Raising His Voice *By Charles Pretlow*

The eruption of Mount St. Helens on May 18, 1980 was the deadliest and economically destructive volcanic event in the history of the United States.

The explosion spewed ash across eleven states killing 57 people and causing over a billion dollars in property damage. Past Prophecies: In the early 1970s, at a time when the Holy Spirit moved across the nation, many prophecies had warned of the Northwest and Puget Sound area being devastated by earthquakes. Many thought St. Helens' eruption was the fulfillment of those prophecies. This is a prophetic warning: God is raising his voice and Mount Rainier will soon be spewing lava.

The United States is about to take another hit in these birth pangs Christ predicted. Mount Rainier is about to ignite and start the Pacific Northwest's portion of the Pacific Ring of Fire. Learn how to prepare for the coming upheaval of Mount Rainier with its far reaching affects upon the people and the economy of the Puget Sound region-rippling out to the nation and the world. Don't be caught unprepared like the five foolish maidens in Christ's parable, for the sound of the midnight cry is quickly approaching.
